

# Filter and Softener

SHOWER SOFTENING UNITS

M5A3

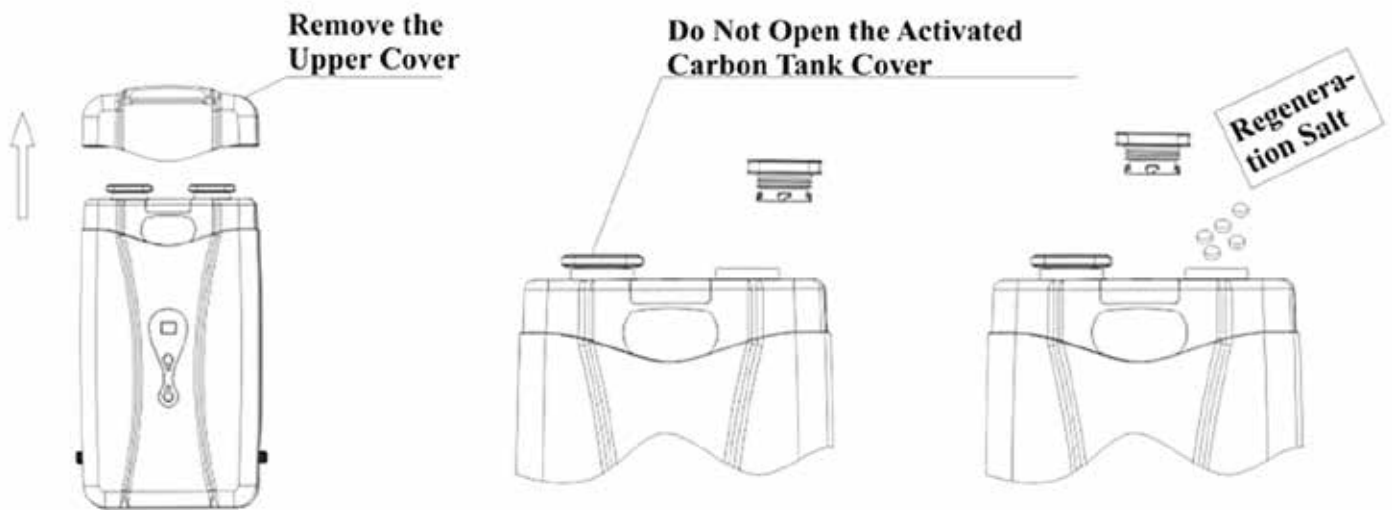

M5B3

## Filter and softener shower units feature:

- Use of KDF and activated carbon filter materials to eliminate residual chlorine and prevents bacteria growth
- Dynamic regeneration mode allows for more water treatment capacity and savings on salt and water
- Can be installed before or after water heater. Before water heater could prevent heater damage from scale
- Single button for regeneration and then automatically controlled regeneration time
- Data saved after power off
